- * Positivity is the most important aspect which will guide you to achieve your goals, MIRROR CLINIC has this in tons. This aspect helped us/man in viewing everything around positively.
- * Patience - Another important aspect which you learn
- * Managing Time - * Compliance in following medical guidance.
- * Finally we also learnt in trusting people.

All these aspects required in bringing up a baby is inculcated at this place, along with medical assistance.

Thankyou
Everyone

Hi,

Thanks a ton for the wonderful care you have given doctor.
Comparing my friends who had undergone pregnancy with other hospitals, I really felt blessed to be treated by Dr. Revathi Rajan.

The timely care along with the explanations on the treatments provided was very useful in keeping the confidence and relaxing during pregnancy.
Thanks again for the same doctor. The staffs were very helpful and understanding. ☺

It's a girl as i wished for. So I am very glad ☺

Thanks once again Dr.

My association with Dr. Revathy has been a long one. To be precise, for the last 10 years. I have never had such a close association with any doctors in my life, unlike her. Her patient friendly approach, in-depth knowledge and personal care and attention is what makes her unique. She has taken more efforts than me and constantly believed that I will be able to bear another child sooner than later, which has finally happened. All thanks to her relentless efforts and constant encouragement.

The others I wish to thank are Dr. Govindarajan and Dr. Deepika who have helped me in achieving my dream.

I also wish to extend my thanks to the entire staff of Mother Health who have always been very friendly in their approach.

We was not knowing about this hospital and it was referred by our cousin sister Ashwini, After meeting Dr. Revathi Mam, she was so clean in her words to any of the patients. I was happy that I met the right person for having kids. I was having issues with diabetic and it was advised in good way and today because of those advice, I am pregnant and happy to visit the clinic as there will be proper monitoring and Dr. Revathi Mam used to advise the best medicine.

Also, Dr. Gowindaraju Sir, he is so polite person and respect every women before he scan and also tells on what is happened in scanning in the way we understand.

Above all the staff is very much responsive and respectful as well. We see in the other hospital, there is an appreciation board for staff as well on every month, this shows there is an motivation for staff to work proactively and efficiently.

Happy to continue with the hospital and also would like to refer any of friends to this hospital.

Dear Doctor,

My association with you dates back to year 2011, I have ^{been} trying for conception since then, and have been on and off for the consultation with you due to family pressure. Everytime I come back to ~~me~~ you, you have hand holded me and have helped me to have positive approach towards the journey of my pregnancy.

I remember taking the alternate medicine for conception my body's immune system was affected and I just came to the clinic and slept. you helped me to bounce back by directing me to right specialist, with your effort and strategy I was able to successfully conceive.

Appreciate your proactiveness and instinct of forecasting the problem and helping the patient to not forget the same at the right time. "Thank you!"

REVIEW REMARKS
Dr. T. Ginja -
Am simply
Overwhelmed!
Loving
woman

My association with Dr. Revathi & mirror health care started from 2018, I am trying to conceive from past five years but nothing worked Infact I have a tried a IVP in 2017 which did work in green view hospital under Dr. Achi But I have a positive hope and positive signs that through mirror health care under the guidance of Dr. Revathi I will be finally able to have a healthy baby this inner conscious positivity is through the way doctor and the staff, the way they handle each case and their perfection, I hope I will be blessed with a healthy baby, I thank the staff and the whole team in the hospital the way they treat, they guide, Administration the medication everything is excellent and I thank everyone for their team to help women who are not able to conceive. doctors approach shows their concern is not about money their primary concern is treatment & their result.
